44mm High Security Composite Doors

---

# Why us?

## Unparalleled Security

Our GRP composite doors offer enhanced security thanks to its rigid polymer sub-frame, high density insulated core and high impact resistant GRP skin. Rest assured that our doors are tried, tested and trusted, keeping you and your family safe.

## Stunning Aesthetics

The woodgrain finish was developed from oak tree grain. You'll also find the same woodgrain effect and moulding design on the slim glazing cassette, giving a seamless and authentic finish.

## Low Maintenance

Everything about our GRP composite door is designed to be easy to maintain - simply wipe clean with warm soapy water. See page 51 for more information.

## Superb Sound Insulation

With a weighted noise reduction of 31 decibels it means you can be sure your new door will keep outside noise to a minimum.

## Exceptional Durability

High impact resistant glass reinforced polyester (GRP) skin that will maintain its pristine appearance.

## Triple Glazed Glass (Decorative Units Only\*)

Our triple glazed, laminated as standard insulated glass units encapsulate the decorative glazing between two panes of clear glass, protecting it and making it easy to keep clean.

## Excellent Weatherproofing

With water resistant polymer composite rails, our doors will keep the weather at bay and will stay looking great for longer.

# Signature RANGE

Door styles within the Signature Range that feature glass have a projected glazing cassette.

## What makes our door exceptional?

- ✓ Incomparable security features
- ✓ Remarkable durability
- ✓ Low maintenance
- ✓ Excellent weatherproofing
- ✓ Superb sound insulation
- ✓ Stunning aesthetics
- ✓ Excellent thermal efficiency

### 19% more...

THERMALLY EFFICIENT THAN A 48MM  
SOLID TIMBER CORE COMPOSITE DOOR

#### The most energy efficient composite door on the market

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. One of the best ways to achieve this is to choose thermally efficient products which will keep warmth in and cold out, saving money and emission levels.

Look out for the 'A' to 'C' indicative energy ratings displayed on most pages. With 'A' delivering the highest performance levels.

Doors were tested at the University of Salford's Energy House. This represents a typical Salford 1919 terraced house and its construction represents 21% of the UK's current housing stock. The house has been reconstructed in a fully environmentally controllable chamber, in which climatic conditions can be maintained, varied, repeated and patterns monitored. For the test, the inside temperature of the Energy House was 25°C with an exterior temperature of 5°C.

# nxt-gen

next-generation range

## Our Latest Innovation

Whilst we feel the choice and quality of our doors are unparalleled; we are constantly striving to raise the bar, to improve our products and to give our customers more.

This can be seen very clearly in this addition to our range. It's called nxt-gen and for a very good reason.

The range features our latest innovation where the flush-fitted innerframe sits level with the moulding to give sleek lines and a finish which is unsurpassed.

## What makes our door exceptional?

## Door Security

For your security, Ultimate Bespoke Doors are fitted with a robust **6 point multi-lock**.

### Ultimate 6 Point Lock

3 x dead locks

2 x opposing hook locks.

1 x centre locking latch.

Hook & Dead Locks

Hinges (other finishes available)

### Hinges

High security hinges with 3 way adjustment completes the security and ensures the door seals tightly with little effort.

## Yale 3 Star High Security Cylinder

To prevent cylinder manipulation, Ultimate doors are fitted with a 3 star high security Yale cylinder, and for convenience all doors are supplied with 5 keys as standard.

collection

Partnership secured with **Yale**

### Care and Maintenance

Your Ultimate GRP composite door has been designed to be easy to maintain.

To keep your door clean, prolong the life of the surface finish and protect your warranty, we recommend you wash it regularly using warm soapy water (washing up liquid is ideal) and a soft, lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you **DO NOT** use any of the following on your door:

- Abrasive cleaners or scouring pads
- Any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- Any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc.
- High pressure or steam cleaners

### Door Construction

Every Ultimate GRP composite door is manufactured to the highest of standards to ensure it is strong, durable and secure. We have sold over four million doors to date, evidence of the quality and exacting specification we demand.

The door has a perimeter sub-frame of a solid, water-resistant polymer material, which is reinforced with Laminated Veneered Lumber (LVL). A thermoset GRP skin is bonded to this sub-frame and the core of the door is then filled with high density, 100% CFC-free polyurethane foam. Water resistant polymer composite rails protect the core from damage or water absorption and the high impact resistant thermoset GRP skin keeps your door looking great for longer!

The door's core is what makes it so thermally efficient and so good at reducing sound. In fact, it is the most thermally efficient door on the market, increasing your home's energy efficiency and saving you money on your energy bills.

### Technical Figures

An Ultimate GRP composite door has a wealth of facts and figures that prove its quality. The door:

- Reduces outdoor noise by an average of 31dB
- Achieves Global Warming Potential (GWP) score of less than 5
- Achieves Ozone Depletion Potential (ODP) score of zero
- The door leaf and glazing system are major components when part of a door set and have a proven ability to achieve PAS24:2016, industry's enhanced security standard, a prerequisite in attaining certification to Secured by Design a police initiative to protect against unlawful intrusion

Everything about an Ultimate GRP composite door has been designed to enhance your home for years to come.

### Triple Glazed Glass Construction (Decorative Units Only\*)

Example;

### Features and Benefits

- Decorative triple glazing
- Protected from dust and weathering, easy to clean and stays looking good for longer
- Tested and CE marked
- 6.8mm glass laminated as standard

\*Standard, patterned or clear units are double glazed with a choice of toughened or laminated panes.
